PROFILE

I'm a Full Stack Web Developer passionate about building modern, responsive, and high-performance web applications. I specialize in React, PHP, and MySQL, focusing on clean code, intuitive user experiences, and scalable solutions. I continuously improve my skills by learning new technologies and building real-world projects that deliver reliable digital solutions.

WORK EXPERIENCE

Present

Junior Frontend Developer

Zeireed

Worked as a Junior Frontend Developer, focusing on building responsive and user-friendly web interfaces. Developed modern UI components, converted design concepts into functional frontend layouts, and improved user experiences through clean and maintainable code.

Collaborated with designers and developers to create responsive websites, optimize frontend performance, and implement best practices using HTML, CSS, JavaScript, and modern frontend technologies.

Key Responsibilities:

- Developed responsive and interactive user interfaces.
- Translated UI designs into clean and reusable frontend components.
- Improved website performance and cross-browser compatibility.
- Collaborated with team members to deliver quality frontend solutions.
- Followed modern frontend development practices.

PROJECT EXPERIENCE

2024 – 2025

Frontend Developer

Frontend Mentor

Completed multiple real-world frontend challenges by developing responsive, accessible, and pixel-perfect web applications using HTML, CSS, JavaScript, and React.

Improved frontend development skills by analyzing professional designs, creating reusable components, solving UI challenges, and following modern development practices.

Key Responsibilities:

- Built responsive and interactive user interfaces from provided designs.
- Converted design concepts into clean and maintainable frontend code.
- Developed reusable components using modern frontend approaches.
- Ensured cross-browser compatibility and accessibility standards.
- Optimized applications for better performance and user experience.
- Improved problem-solving skills through real-world frontend challenges.
